### ACTIVE & ADVENTURE

#### EXCURSION TO VESUVIUS (APPROX. 4 HOURS) - NAP04

The beautiful Bay of Naples in the south of Italy is dominated by the town's most iconic landmark: Mount Vesuvius, whose main cone currently reaches nearly 1,300 metres. While the slopes are marked by lava flows, a testament to earlier eruptions, they also feature heavy vegetation with vineyards in the foothills as well as scrubland and forestation higher up. Mount Vesuvius' best-known eruption occurred in A.D. 79 and resulted in the destruction of two cities: Pompeii and Herculaneum, which were only rediscovered in the 18th century. An enjoyable guided walking tour will take you to the crater, from which point you can see a bed of lava and look out over the beautiful Gulf of Naples. Your return journey to the ship will give you more opportunity to admire the landscape's lovely vistas. Please note: wear comfortable walking shoes for the 30-minute climb up to the crater. In case of bad weather the tour programme will take guests on a panoramic tour of Naples.
